

Curriculum Overview, Year One

Term Three, 2021

English

Unit 4:

Task: Create and present a character

Learning intention: Students are learning to create a new character for the "Cranky Bear" series so that they can present to their peers.

Unit 5:

Task: Retell a cultural story

Learning intention: Students are learning to create and present a retelling of a traditional or cultural story

Reading

Students can:

- listen to a variety of traditional and cultural stories and stories written as series
- identify their favourite characters and supporting characters and talk about why?
- identify how an author uses language and images to show what a character looks like and their qualities.
- retell a story in sequence

Writing

Students can:

- write about what their character looks like, their human qualities, what their character does and how he/she fits in with the story.
- Create a retelling of a traditional story so that we can engage our reader

Speaking and Listening

Students can:

- prepare and practise interview questions so that they can answer and ask questions about theirs and others characters.
- present their retelling to the class

Science

Unit 3: Changes around me. (Earth and Space Sciences)

Learning intention: Students are learning to explore sky and land so that they can describe the features of landscapes and skies.

Mathematics

Unit 3:

Number and Algebra

Students can:

- represent and record 2 digit numbers identifying digit values.
- position numbers on a number line and partition numbers.
- add single and 2 digit numbers, record and solve simple addition and subtraction problems.
- recall 1's, 2's, 5's and 10's counting sequences, and identify number patterns.
- recognise, describe and order coins
- identify one half.

Measurement and Geometry

Students can

- compare, measure and order objects based on length and capacity.
- describe duration of time, tell time to the ½ hour and show time on analogue and digital clocks.
